

Week Beginning 22.4.19

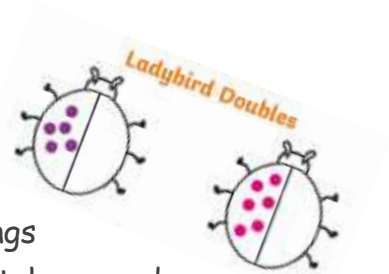

This week...

We have welcomed back all the children after having our Easter holidays! We started by hearing all the lovely things the children did on their holidays and looked through their photos on tapestry. The children also wrote their holiday news in their job books, showing some wonderful independent writing!

In Maths...

This week in maths, we have learnt about doubles - two of the same thing! The children have enjoyed learning through songs and they even became witches and wizards and doubled their friends in the class!

Next week...

Next week we will be looking at the life cycle of a butterfly and how it goes through metamorphosis from a caterpillar. We will be reading *The Very Hungry Caterpillar* and talking about healthy foods. In maths, the children will be learning about halving - sharing something into two equal parts.

Bug Challenge...

At home can you be a magician and do some doubling with your toys or objects around the house? Show your grown-ups what you have learnt about doubling!
