

Week Beginning 14.10.2019

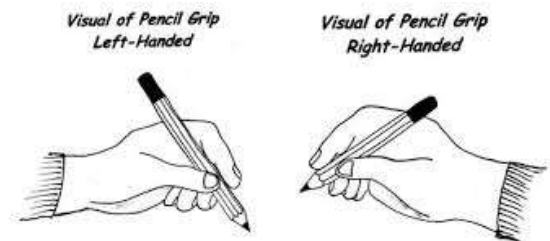

This week we have been.....

We have really enjoyed learning our first four letters and their sounds (p, a, t, i). The children have learnt each letter and its sound. They have also loved learning how to write the letters. We have been doing lots of counting activities, singing counting songs and exploring numerals, representing them in different ways.

Coming up next week....

We will be introducing our next four sounds; n, ch, s, ee, d and practising these through lots of fun activities and games. In maths, we will be counting, adding and taking away up to 5. We will continue to practise writing our names, forming all the letters carefully and try to hold our pencil correctly.

Bug Challenge.....

Can you find s,a,t,p words in the environment. Come and tell us what words you have found!

As the weather gets colder please encourage your child to put their coat on independently.
