

Purple Mash

Dear Parents/Carers,

To replace Education City we have bought into Purple Mash.

We would like to offer all children the opportunity to use this resource to reinforce, consolidate and extend their curriculum skills.

Attached to this letter is a temporary password that can be used at home until children's individual logins have been set up. This means that they can build their confidence with the resource that they are using in computing lessons. We hope that you and your child enjoy exploring Purple Mash at home and find it a useful tool to access all areas of the curriculum.

To access, type in the web address below, then enter the login and password.

Have fun!

Yours sincerely,

Miss R.Stockwell
