

29/11/16

This week we will be looking at...

English We will be learning about the features of a letter, and will end the week by writing our own letters. If you have any letters at home please look at them with your child and point out the common features such as address, date, dear, from etc.

Maths We will start the week looking at our number bonds to 20. These are pairs of numbers that add up to make 20 such as $17 + 3 = 20$. By the end of the year the children will be expected to know these off by heart so it's never too late to start practising. By the end of the week we will be looking at addition and subtraction by jumping on a number line.

Science In science we will be continuing our theme of animals, this week looking at what animals eat. The key vocabulary we will be using is carnivore, herbivore and omnivore.

Topic In topic we will be looking at sculptures. To create cross curricula links we will make animal sculptures. We will plan, make and evaluate our sculptures, then bring them home for you to enjoy.

We are also busy learning our songs for our Christmas performance and practising our dance moves. You should have received your costume letter and we look forward to seeing them.

Love

The Year 1 Team
