

03/02/17

This week...

This week we have been explorers, learning about our world. The children have enjoyed investigating animals in, different environments, different cultures and traditions and learning about whether and how it effects the environment and landscape.

We have looked at flags and created our own using our favourite colours and features. We followed the children's interests to solve problems involving more and less.

We have focused on practising all digraphs and introduced tricky words 'here' and 'there'.

Coming up Next Week.....

Next week we will continue to explore the world through international week. We will focus on the UK. We will enjoy traditional art, music, landscapes and traditions from the UK and also from around the world. Parents and visitors will be sharing their interests and experiences with the classes including an African drumming workshop on Friday morning.

We will be introducing tricky word 'my' and 'by' and recapping all sounds, focusing on digraphs and applying phonic knowledge to blend words, segment words and write captions and sentences.

Bug Challenge

(Just for fun and if you have time)

Enjoy a cosy time at home looking through holiday photographs. Talk about different countries or places that you have visited together and discuss how you travelled there! Can you find where you have visited on a map or globe? Can you use technology and find places on google earth?!

Have a lovely weekend!
