

Dear Parents/Carers,

Rockets - junk-modelling 'show and tell'

As many of the children have previously expressed an interest in rockets, our topic this week is all about 'Outer Space'.

Lots of children have expressed an interest in creating a rocket out of recycled materials; therefore on **Wednesday 1st March** we will be holding a 'show and tell' circle time session for children to bring in a home-made rocket.

If your child does not attend nursery on Wednesdays, they are able to bring in their rocket to show and tell for their next session.

Please note this is optional but widely encouraged!

Many Thanks,

The Nursery Team 😊
