

## English:

We are continuing our learning about the Little Red Hen but this week we are going to be changing the story! The Little Red Hen is going to be cooking or baking different food in our new stories. To prepare your child for this you could spend some time talking about the kinds of fruits and vegetables that are associated with Harvest time.

## Maths:

We are going to be investigating number bonds a little more, thinking about how many pairs of numbers can add to make a total within ten.

We will also be finding out how recording systematically can be helpful and trying it out for ourselves!

PE has been great fun this week as we have been able to have most of our lessons outside. Please remember that as the days get colder we might need tracksuit trousers to keep us warm. As with all PE items, please ensure these are named before sending them in to school.

## Harvest Festival

The Key Stage 1 (Years 1 and 2) Harvest Sing-a-long was a great success and a big thank you to everyone who came to see the children, to the class reps for organising the food and to everyone who donated in one way or another. It is much appreciated!

Have a lovely weekend!

Love, The Year One Team
