

Week Beginning 6.11.2017

This week we...

Started off discussing our experience of fireworks and used describing words such as whizz and boom!!! We had another look at 2D shapes and the children are getting very confident in describing their properties using the words sides and corners. During phonics we introduced our first tricky words 'I' and 'the'. The children learnt that tricky words are words with some sounds in them, which trick us!

Coming up next week....

We will be introducing the next 3 sounds 'l', 'f' and 'b' and the tricky words he, she, me, we and be. Next week is anti-bullying week, so in reception we will have a focus on kindness through the use of stories and we may even bake some cookies to give to loved ones. Yum! Christmas plays are fast approaching so we will be beginning to practise our songs for our Christmas play.

Bug Challenge.....

Have a look around your house and surroundings, can you find any of the shapes we have been talking about in school? When you're driving in the car, what shapes can you see? Can you use the language - sides, corners, 2D, straight, curved, to describe your shape?
