

## Week Beginning 4.12.17

### **This week we...**

We are so proud of all of the children for performing beautifully in front of all of their grownups in their Christmas plays! They sang, spoke and acted with such confidence. Well done children you are all superstars!

We have begun using the language of addition and subtraction to talk about numbers increasing and decreasing.

We have had some lovely discussions about describing words and used them to describe Santa or a snowman! We had some great adjectives such as 'fluffy beard' and 'warm gloves'. Brilliant!

### **Coming up next week...**

We will continue to practise our digraphs, reading and writing them, as well as introducing the sounds oo/oo, y, x and the tricky word 'of'.

We will continue to talk about the language of addition and subtraction, setting problem solving challenges!

### **Bug Challenge.....**

Please have a look at the tricky words in your learning folders! If you know it by sight already, ask a grown up to read one out and have a go at writing it! Did you remember any of the letters? Do you remember what sound is tricking us? Bring in any beautiful writing for show and tell, the class would love to see it!
