

Week Beginning 14.5.2018

This week ...

The sun was shining for our last forest school session in the Woodland Enclave. Our Bluebell fairy was in a glittery pickle as she had lost her special home during the rain on Saturday! We worked very hard and built her new homes. The children left messages for the fairy too.

She was touched by the children's kindness, so she sent us magic beans to say thank you. The children were excited to share what would grow out of their magic bean and where it could take them. They used their imagination for writing their own stories!

We had fun learning how to double. The children enjoyed becoming witches/wizards. We closed our eyes and sung this spell ..

'Double double, toil and trouble, make these children into doubles!!!!!!!'

When they opened their eyes, magically we had 4 children instead 2!

We had a special delivery of tadpoles in Reception! They have grown a lot and the children are enjoying observing the changes happening and discussing a frog lifecycle.

We believe you are all very excited about the royal wedding this Saturday. We decided to celebrate one day early and had a party today!

Coming up next week....

We will be reading lots of stories based on Giants and will be using these stories for our writing and maths. In maths we will recap sharing and halving and will be solving problems.

Bug Challenge.....

Why not enjoy a picnic in the sunshine over the weekend! Can you share the food, plates, cutlery, with your family? Is it fair? Have you shared equal amounts? Enjoy watching the royal wedding!

Thank you so much for all your support! Have a wonderful weekend!
