

Week Beginning 11.6.2018

This week ...

After the whole week with no books in our book corner we were so happy and super excited to have them back! We read different books with the children and talked about the structure of the stories. We have enjoyed reading our books and we really appreciated the muddle mokey bringing them back.

On Tuesday we showed the children lots of pictures based on their interests e.g. space, dinosaurs, fairies. We discussed how we can make our sentences better by using adjectives (describing words). The sentences we wrote were amazing, with lots of interesting descriptions. We were really pleased to see them using their fingers spaces, capital letters and full stops in their sentences.

We had a fabulous time acting out our own stories.

Coming up next week....

We will be busy practising for our Sports Day and recording our own CD! How exciting! We will be using everyday language to talk about position and distance to compare quantities and objects. Muddle Monkey is still causing trouble in Reception so there is bound to be more problems to solve! The children are going to have lots of opportunities to use their imagination to write their own stories.

Bug Challenge.....

When you visit our Summer fair or a shop this weekend. Have a look at coins. How much does it cost? Can you help your grown-ups make sure they have the correct amount of money to buy what they need at the shop/summer fair? What coins do you need? (Make sure you get the correct change too!)

Have a wonderful weekend!
