

Week Beginning 08.10.2018

This week we have been.....

We have really enjoyed learning our first four letters and their sounds (p, a, t, i). The children have learnt each letter and its sound. They have also loved learning how to write the letters using our new 'whoosh' writing (cursive writing). We have been doing lots of counting activities, singing counting songs and exploring numerals, representing them in different ways.

Coming up next week....

We will be introducing our next four sounds; n, ch, s, e, d and practising these through lots of fun activities and games. In maths, we will be introducing our next five numbers; 6-10. We will be working hard practising recognising and writing our names using our "whoosh" writing.

Bug Challenge.....

Can you find s,a,t,p words in the environment. Come and tell us what words you have found!

S *a* **t** **P**
